

1

Surgi™
extended sterile fields

Studies indicate nosocomial infections can be prevented by well-organized infection control programs. Providing up to 8' of sterile barrier protection, Surgi covers are a reliable way to provide patient and staff safety.

2

Surgi-Tip™
form-fitting protection

Form-fitting covers for small footprint surgical transducers provide added sterile protection and allow for easy maneuverability during image acquisition. Covers reach from tip of transducer to the connector on the system.

3

Surgi-Boot™
easy application

Form-fitting covers for small footprint transducers provide sterile protection up to 8' and allow for easy maneuverability during image acquisition.

4

Laparoscopic
ensure viral barrier

Prevent cross-contamination by covering all standard 10mm laparoscopic and specialty transducers. Sterile covers enable quick re-use of equipment during high-volume stages.

5

Equipment Drapes
expanded equipment protection

CIVCO offers equipment drapes for all types of ultrasound equipment including: system drapes, remote control covers and catheter covers. With the advent of bedside ultrasound it is vital to expand the sterile field in all types of environments.

safe. efficient. advancing OR infection control.

Five tips for clinical confidence in the Operating Room.

Latex-Free Intraoperative Transducer Covers

Ref. #	Product Description	Qty.
<u>Surgi™ Intraoperative Covers</u>		
610-023	Sterile 15.2 tapered to 7.6 x 244cm (6" tapered to 3" x 96") accordion-folded cover (no gel)	12
610-367	Sterile 15.2 tapered to 7.6 x 244cm (6" tapered to 3" x 96") accordion-folded cover (includes gel)	12
<u>Surgi-Tip™ & Surgi-Boot™ Intraoperative Covers</u>
