

NEW

Universal Couchtop™ - One Piece

CIVCO is proud to introduce the new Universal Couchtop One Piece. The UCT One Piece is a strong, rigid and lightweight couchtop with low attenuation, ideal for IGRT tracking. Like CIVCO's original Universal Couchtop™ offering, this new couchtop is compatible with our Body Pro-Lok™ bridges for SBRT, patient handles and accessory rail.

- Features DoseMatch Technology™ – dosimetrically matching CT overlays available, allowing you to use the same couchtop in simulation and treatment
- Varian End Plate Available – designed to slide onto the end of the couchtop

The affordable UCT One Piece is equivalent in length to the original UCT plus our rectangular extension.

Contact your account representative for more information about the UCT One Piece.
